Vineyard

"El Holgazán" comes from a cluster of Vineyards in Tubilla del Lago. At 920 meter these unique plots are in the northernmost corner of the Ribera del Duero. The plots are on a high plateau with clay-sandy soil and very little vegetation. The roots work their way through deep layers of rock. It is a spectacular location overlooking the Gromejón river with a microclimatic influence from the Sierra de Cervera. The vineyards were planted between 1990 and 1996.
